

CABLE TIE

General Details

Heavy Duty Cable Ties are designed to secure cable bundles, harness wiring components and keep them in place. Coming in a pack, they have a self-locking head on one end and serrated teeth which function like straps on the other end. These two ends work by fitting inside each other in a self-locking mechanism

Features

- Very good UV resistance 50 lb Tensile Strength
- Manufactured for indoor and outdoor use
- By grouping cables together and holding them tight, they help organize wiring systems and ease the burden of work.

Product Specification

Parameter	Specification
Length	8 Inch
Width	0.30 Inch
Min Tensile Strength	120 Lbs
UV Protection	Yes
Material	Nylon 6/6 - General Purpose
Color	Black & White
Weight (Lbs)	0.64
