

# COAXIAL JUMPER

## General Details

Coaxial jumper cables provide an easy connection for setting up televisions, satellite televisions, security cameras, and a variety of audio/video connections. Jumper Cable, Gold Plated Brass comes pre-terminated with screw on gold plated brass F connectors. These jumper cables have a 70 ohm impedance for home theater A/V connections

## Features

- Consisted of high quality RG316 coaxial cable and SMA male to SMA female, to ensure high quality communication.
- High temperature resistance, acid resistance, corrosion resistance, high frequency low loss and low impedance
- Length: 10cm RG316 military quality cable.
- Connector: All-copper SMA male and SMA female adapter.
- Round and straight type SMA adapter suitable for various of angles, which is more convenient to connect wire jumper.

## Product Specification

Parameter	Specification
Connector	SMA Male to SMA Female
Connector Material	Copper
Cable Type	Cable Type: RG316 Coaxial Cable
Length	15cm
Impedance	50 Ohm
Work Temperature	-40~+85 degree
